SUMMARY

Java Full Stack Developer with 3+ years of experience building enterprise healthcare and government platforms, including ABHA/ABDM integrations, billing systems, and secure teleconsultation workflows. Strong in Java, Spring Boot, microservices, PostgreSQL, and security hardening. AWS Certified Solutions Architect and Confluent Certified Kafka Developer. Contributed to architecture decisions and mentored 2 junior developers.

TECHNICAL SKILLS

- **Languages & Backend:** Java 8/17/21, Spring Boot, Spring MVC, Spring Data JPA, Hibernate, REST APIs, Microservices, Design Patterns.
- **Security:** Spring Security, Role-Based Access Control (RBAC), OWASP Top 10 mitigation, VAPT remediation.
- **Databases & Caching:** PostgreSQL, MySQL, Redis, MongoDB.
- **Cloud & DevOps:** AWS (Certified SAA & CCP), Confluent Certified Kafka, Docker, Kubernetes, Maven, Git, SVN.
- **Testing & Quality:** JUnit 5, Mockito, REST Assured, SonarQube, TDD/BDD.
- **Frontend:** React, Angular, JavaScript (ES6+), TypeScript, HTML5, CSS3.
- **Practices:** Domain-Driven Design (DDD), SOLID Principles, Agile, Scrum, Code Review.

PROFESSIONAL EXPERIENCE

Trinity Enterprises International Limited, Mumbai, India | *May 2023 – Present*
Software Developer | *Nov 2023 – Present*
Software Development Intern | *May 2023 – Oct 2023*

- **Healthcare integrations:** Implemented end-to-end ABHA/ABDM integration (M1/M2/M3) with FHIR-compliant data exchange and secure teleconsultation workflows, serving 2 facilities.
- **Billing and finance:** Built multi-payer billing workflows covering charge calculation, payments, receipts, and reconciliation for water, fire, and property tax, processing 10,000+ transactions across 3 payer types.
- **Security and compliance:** Identified and remediated 20+ vulnerabilities (SQL injection, XSS, CSRF, insecure CORS) from VAPT findings, and implemented RBAC with Spring Security and Redis-based sessions, closing 5+ critical findings.
- **Data protection:** Built a Spring Boot and Spring Batch service (Java 21) to migrate 4 million records into encrypted, hashed, and masked columns using OpenBao, supporting DPDP Act 2023 compliance with zero data loss.
- **Performance:** Cut average API response time from 1,800 ms to 400 ms (78% faster) through PostgreSQL query tuning, indexing, and Redis caching, handling 100 concurrent users.
- **Module delivery:** Delivered registration, billing, analytics, user management, and admin modules in Spring Boot and PostgreSQL, used by 100+ users and shipped 5 modules to production.
- **Quality and collaboration:** Wrote JUnit 5 and Mockito unit tests, worked with DevOps and DBA teams in Scrum, and resolved 300+ production defects.

PROJECTS

Kartly — Scalable E-Commerce Marketplace | GitHub | Live Demo
Tech Stack: Java, Spring Boot, React, Microservices, PostgreSQL, AWS S3, Apache Kafka

- Developed a scalable, multi-role e-commerce marketplace enabling customers to browse products and shop, sellers to manage listings and fulfillment, and administrators to oversee marketplace operations.
- Built a microservices-based backend using Java and Spring Boot, with PostgreSQL for relational data persistence and AWS S3 for product image storage.
- Integrated Apache Kafka for asynchronous, event-driven communication between services to support decoupled and scalable marketplace workflows.

FoodSwift — Cloud-Native Food Delivery Platform | GitHub
Tech Stack: Java, Spring Boot, Angular, Microservices, PostgreSQL, Docker, Kubernetes

- Developed a cloud-native food delivery application featuring user authentication, restaurant listings, menu management, cart functionality, order placement, and order tracking.
- Designed RESTful backend services using Java and Spring Boot, with Angular for the frontend and PostgreSQL for persistent application data.
- Containerized application services with Docker and deployed them on Kubernetes to support service orchestration, scalable deployments, and cloud-native application management.

EDUCATION

Master of Computer Applications (MCA) — Manipal University Jaipur Jul 2025 – 2027 (Expected) (Part-time)
Bachelor of Engineering, A. C. Patil College of Engineering, Kharghar | CGPA 8.42 Jul 2018 – Aug 2021
